

## CITY OF PORT ALBERNI METERED WATER - RATE STRUCTURE - 2007

Your water bill is forwarded three times per year. The total charge is made up of two components, the Consumption charge per unit of water used, and the fixed system charge which is a monthly fee based on the size of your connection.

The **average** residential customer in Port Alberni uses about 0.8 m<sup>3</sup> (800 liters) per day. Based on this average use the consumption charge would be:

$$0.8 \text{ m}^3/\text{day} \times 122 \text{ days} \times \$0.37/\text{m}^3 = \$36.11$$

The Fixed System Charge for a 3/4 inch (19mm) connection would be:

$$4 \text{ months} \times \$10.48/\text{month} = \$41.92$$

$$\text{The total bill would therefore be: } \underline{\underline{\$78.03}}$$

**Your bill will vary depending on how much water you use.**
