DESCRIPTION OF HISTORIC PLACE

Please write a description that will paint a picture of the historic place. Please describe very generally what should be formally recognized and identify the principal features of that place that contribute to its heritage value. For example, the special features, materials, activities that occurred (and may still occur), cultural associations or meanings that are associated with the historic place may be included.

THE HERITAGE VALUE OF THE HISTORIC PLACE

Basic values shared by community members lead to determining where heritage values lie. In the Alberni Valley we value historic objects, events and stories, buildings and places and landscapes that may include one or more of the following:

- -be unique to the Valley and rare in Canada and the world
- -have had a major impact on the past
- -have come from our history and continue to affect our lives
- -have enriched and added to our understanding of who we are and where we have come from
- -be at risk of damage or demolition: is old and time-sensitive
- -be identified as having heritage value, based on knowledge, rather than personal preference

In your heritage value statement, please, include information concerning any of the above. Not all the concepts will be applicable to your nomination. Please, add any other information you think is relevant. Space for additional information: (please indicate which section you are providing the information for)
