

CITY OF PORT ALBERNI

DEVELOPMENT VARIANCE PERMIT APPLICATION GUIDELINES

The Zoning Bylaw contains specific regulations for development and permitted uses and the Sign Bylaw regulates signage within the Municipality. These land use Bylaws can be updated, or changed, by applying to the City of Port Alberni for amendments OR for variance of specific provisions for a particular site.

THERE ARE TWO DIFFERENT VARIANCE PROCEDURES (Please read each description and consult with the Planning Department to determine which type of Variance Application applies to your situation):

1. Development Variance Permit Application

Development Variance Permits are approved by City Council or delegated staff. If an application does not fall within the jurisdiction of the Board of Variance or if the variance is required for a new or re-development in conjunction with a bylaw (i.e. Zoning Bylaw) amendment, a Development Variance Permit should be pursued.

2. Board of Variance Application

The Board of Variance deals with applications for minor variances in situations where compliance with a Bylaw would cause undue hardship.

NOTE: A VARIANCE MAY NOT VARY THE USE OR THE DENSITY OF LAND OR A FLOODPLAIN SPECIFICATION.

APPLICATION PROCESS

For most applications the process is as listed below:

1. Pre-application meeting with staff to review details of application.
2. Staff outline submission requirements.
3. Applicant submits a completed application and pays the administration fees.
4. Staff complete an initial review of the application and issue referrals to other City departments and external agencies (when required).
5. If the application is considered a Minor Development Variance Permit, skip to step #8.
6. Staff present a report to the Advisory Planning Commission for comment that will be considered by Council.
7. A public notice is prepared and distributed to property owners and occupants within 100 metres of the site advising when Council will consider the application and inviting the public to provide comment for Council's consideration.
8. Staff prepare a report with recommendations to City Council or the Delegate.
9. City Council (at a Regular Council Meeting) or the Delegate considers the application and may issue (with or without conditions) or deny the permit, or may request further information.
10. If the Development Variance Permit is approved and all conditions are satisfied, the applicant is notified and the Permit is registered on the Land Title.
